Polycab India Limited (PIL) is India's largest manufacturer of Wires and Cables and one of the fastest growing FMEG companies with a consolidated turnover of INR 141+ Bn in FY23. PIL is at the forefront of providing innovative, safe and energy efficient products to a diverse set of customers via a strong distribution network of 4,300+ authorized dealers and 205,000+ retail outlets.

PIL's business operations span across India through 25 manufacturing facilities, 12+ offices and 26+ warehouses. PIL has also served customers in 70 countries globally. PIL's 4,400+ employees are dedicated to upholding robust governance practices, preserving a customer centric culture, having a purpose to serve the communities, and imbibing a genuine sense of ecological consciousness.

ABOUT

POLYCAB INDIA LTD

Testing Beyond Standards

At the heart of our manufacturing facility lies our cutting edge testing facility. Switches undergo demanding tests, ensuring safety and performance that surpass the ordinary, offering you peace of mind and unmatched safety.

Reliability Redefined

Our switches endure rigorous saltwater and flame tests, ensuring corrosion resistance and resilience in the harshest of Indian conditions.

Switching to Sustainability

Managing the entire supply chain in-house significantly reduces wastage, optimizes resource utilization, and minimizes our environmental footprint.

Backward Integration

We assure control and consistency by controlling every part of the manufacturing process. From component molding to switch assembly, each step is carefully streamlined within our facilities.

Durability Guaranteed

Go beyond the ordinary with switches that have been tested for 1,00,000 clicks and sockets tested for 10,000 insertions and removals, providing a seamless user experience.

CRAFTING ELEGANCE

The art and precision behind our switches

Embark on a journey through Polycab's manufacturing, where safety is not just a standard but a commitment. Our premium switches undergo rigorous testing, surpassing industry benchmarks and aligning seamlessly with the **Bureau of Indian Standards (BIS)**.

PREMIUM MATERIALS

UV Stabilized and Virgin Polymers

We understand that the foundation of every exceptional product lies in the materials used. In choosing to utilize virgin polymer, we make a distinctive choice that reflects our commitment to quality and durability.

Virgin polymer, untouched by previous use, ensures the purity and consistency of the material. This choice allows us to create switches, free from the potential variations that recycled materials may introduce. The result is a product that exudes a level of safety and longevity. In addition to that, the fusion of UV-stabilized and traditional polymers creates a symphony of enduring colours in our switches. As these switches grace your living spaces, they become timeless elements that resist the aging touch of sunlight, offering an enduring aesthetic experience.

SOFT CLICK SWITCH

Engineered with precision and thoughtful user comfort, these soft click switches offer a seamless and gentle operation that ensures a pleasant experience with every click. Designed to reduce noise, and provide a smooth effortless action making them ideal for residential and commercial settings.

5 PART MECHANISM

- Low Sound of Operation
- Higher Electrical Safety
- Greater Durability
- Tested for 1 Lac Clicks

SLIM & SLEEK DESIGN

Uniquely designed with a sleek and slim profile that sets our switches apart in both form and function. With a mere 6.9mm width ahead of the wall, these switches redefine elegance.

The ultra-thin design not only exudes modernity but also enhances the overall aesthetic appeal when seamlessly mounted on the wall.
